“SIENNA X”

Med-aesthetic clinic has “tanning” service.

“Natural-looking tan without the inherent dangers of skin damage that can result from over exposure to UVA/B rays. No wrinkles just nourishing moisturising ingredients,” says the skin care specialist.

Involves applying dihydroxyacetone (DHA), a colourless sugar that interacts with proteins and amino acids in outer layer of skin to produce golden brown colour. Tan slowly fades as dead skin cells wear off.

Application takes approximately 10 minutes.

Available at the clinic located in Luqa.

Reminder to check the opening hours and procedures.
