“INK'D”

Skin Academy product range, “Ink’d” is now available in stores.

“Moisturiser nourishes skin and provides essential natural vitamins. Leaves tattoos looking soothed, hydrated and vibrant,” says a rep.

Range made specifically for tattoo care includes hydrating serum, body oil and daily moisturiser with SPF 15.

Products are paraben-free.

Found in the skin care aisle at local supermarkets.

“PPD-FREE” COLOURS

Organic Colour Systems products are now packaged in 100 percent post-consumer “recycled” plastic.

“This means that every bit of our new bottles has been used for something else before, helping to reduce plastic rubbish,” says Diane Cassar.

Range includes products for hair care, style and PPD and PTD free semi-permanent dyes created by a hairdresser who developed a severe allergy to conventional hair colour.

Ask your hair care specialist for details.

“DEPIL” MOUSSE

A leader in hair depilation professional systems offers “Depil” mousse.

“Post-waxing mousse that weakens the hair and slows down its growth thanks to the papaya extract and vitamin E,” says a rep.

Suitable for delicate areas such as the bikini line area or underarms.

Also works on tired legs.

Made by Depilève, products are available in nearly 100 countries, including Malta.

Ask your beauty care specialist for details.

“VITAMIN ENERGY”

Skin care brand launches “Vitamin Energy” treatment.

“Dual treatment with multi vitamins and vegetal taurine. It wakes up tired skin, reduces the effects of oxidative stress, clears and brightens the skin complexion,” says a rep.

In salon professional treatment offers high concentrated serum with 20 percent of pure vitamin C.

Treatment is of a minimum four sessions of 75 minutes each.

Made by Ericson Laboratoire the producer of medically orientated skin care products to treat skin conditions like acne, neuro-sensitive skin, pigmentation, residual scarring and the skin’s ageing process.

Ask your aesthetician for details.

“DIODE” LASER

Laser hair removal specialist offers latest “Diode” equipment.

“Our experienced therapists use the world’s most efficient hair reduction system. For smooth, ready to go skin all year round,” says Nicola Marie Cutajar.

Pain-free technology is suitable for all skin types.

Sessions are a minimum of 15 minutes.

Other services include tattoo removal, skin rejuvenation and Carbon Laser Facial.
